## Financial Controller – Falkland Islands

### Description

An international maritime group with operations across multiple jurisdictions is seeking an experienced **Financial Controller** to lead its core finance function based in the Falkland Islands.

This is a senior, hands-on role offering broad responsibility across financial control, reporting, and systems, within a complex multi-entity environment. It is well suited to a technically strong finance professional who enjoys building robust processes and improving how finance functions operate.

### The Role

Reporting to the Finance & Commercial Director, you will take ownership of day-to-day financial management while contributing to wider commercial and operational initiatives.

### Responsibilities

Key responsibilities include:

- Full ownership of the group's financial control environment
- Preparation of monthly management accounts and group consolidations
- Statutory accounts production and liaison with external auditors
- Budgeting, forecasting, and cashflow management
- Oversight of transactional finance (AP, AR, payroll)
- Leading, mentoring, and developing the local finance team
- Driving improvements to finance systems, controls, and processes
- Supporting senior management with commercial analysis and decision support
- Ensuring compliance with local and international reporting standards

### Qualifications

You will be a qualified accountant with strong technical foundations and proven experience in a group environment.

- ACA / ACCA / CIMA qualified

### Hiring organization

FD Capital

### Employment Type

Full-time

### Beginning of employment

1st April 2026

### Duration of employment

Perm

### Industry

Maritime

### Job Location

Port Stanley, Falkland Islands
