## Financial Controller (Interim / Contract)

### Description

#### About the Opportunity

We are supporting the same **fast-scaling defence technology organisation** in hiring a **Financial Controller** to strengthen the finance function during a period of rapid growth and international expansion.

This is a hands-on role with strong visibility across the business and direct exposure to senior leadership.

#### The Role

Working closely with the CFO and global finance team, you will play a key role in financial reporting, operational finance, and ensuring accurate and timely financial processes across the organisation.

#### Responsibilities

##### Key Responsibilities

- Prepare monthly financial reports for global leadership and Group CFO
- Work closely with supply chain teams on invoice processing and payments within ERP systems
- Support tax filings and corporate compliance requirements
- Produce and manage project-level cash flow reporting
- Monitor project profitability and financial performance
- Support the setup of new entities across jurisdictions
- Manage payroll processes and external providers
- Oversee invoicing, accounts payable, and receivable processes
- Support audit processes and liaise with external accountants

#### Qualifications

#### Candidate Profile

We are keen to speak with candidates who have:

- Experience as a **Financial Controller or Senior Finance Manager**
- Strong grounding in **financial reporting and operational finance**
- Ability to handle confidential information with discretion
- High attention to detail and strong ownership mindset
- Comfortable working in a **fast-paced, scaling environment**

#### Desirable:

- Experience with **Business Central ERP**

#### Hiring organization

FD Capital
