Fractional Financial Controller – Remote (UK) – Creator and E-Commerce Brand

Description

Part-time · Remote · Day-rate (1–2 days/week)
A growing UK creator-commerce business is looking for a fractional Financial Controller to build and run its finance function on a flexible, part-time basis.
This is a hands-on role for an experienced controller who wants ownership without a full-time commitment. You'll be the finance backbone of a lean, ambitious team — creating process where little exists today and giving the founders the financial clarity to scale.
What you'll own

Creator payments end-to-end: accurate, on-time settlement and clear communication with creators on timelines, adjustments and queries
Reconciliations and discrepancy resolution across payments and the e-commerce P&L, including supplier AR

Short and medium-term cashflow modelling to guide founder decision-making
Invoice review, validation and settlement

Building lightweight, scalable financial processes and controls as the business grows

Responsibilities

About you

ACA, ACCA or CIMA qualified
Experienced controller comfortable operating independently with minimal infrastructure
Strong on reconciliations, cashflow and AP/AR

Genuinely hands-on — happy to build process, not just oversee it

Excellent written communication; confident dealing directly with creators and external partners

Strong Excel and cloud finance-systems skills (Xero/QuickBooks or similar)

Qualifications

The engagement

Flexible fractional basis — roughly 1–2 days per week, scaling with the business
Fully remote

Direct collaboration with the founders and real influence over how finance runs
A genuine build opportunity in a high-growth consumer brand

Hiring organization
FD Capital
